- MI Bandung I, 2016

EXPERIENCE

- Apprentice at PT. Serion Dwiguna Binangun
- Motorcycle Mechanics
- Content Creator

SKILLS

- Programming (C, C++, Python)
- Electronic Circuit Design
- PCB Design
- Video Editing
- 3D Design

About Me

I am a passionate and experienced Electrical Engineer with a strong foundation in electronics and system design. Over the years, I have expanded my technical capabilities beyond traditional engineering, developing skills in 3D design, programming, and video editing.

This combination of analytical thinking and creative problem-solving allows me to approach challenges from multiple angles, whether it's designing a circuit, modeling a prototype, writing efficient code, or crafting visual content.

I take pride in delivering high-quality work, continuously learning new tools and technologies, and contributing to innovative, cross-disciplinary projects. I'm driven by curiosity, fueled by collaboration, and always ready to take on the next challenge.
